

Free Up Providers to Focus on Care With AI Built for Behavioral Health

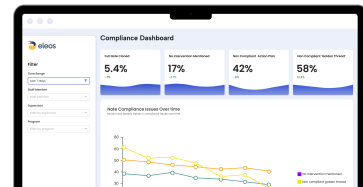

Eleos is an AI-powered platform tailored specifically to behavioral health. Our tools align seamlessly with existing workflows, offering an intuitive, user-friendly experience. By leveraging advanced AI technology, we help providers save time, reduce burnout, and enhance the quality of care they deliver.

Everything You Need to Put Your Best Care Forward

documentation

Fitting right into existing provider workflows, our AI converts session audio and text inputs into polished, compliant progress note suggestions. Providers spend 70%+ less time on paperwork and more time on client care—reducing stress and burnout.

compliance

Avoid the risk of denials and clawbacks without the need for manual audits. With automatic note reviews, in-depth compliance checks, and an intuitive analytics dashboard, your compliance and CQI teams will get a clear view of documentation quality across the entire org.

//

It's been really wonderful working with Eleos. It feels like a partnership with a team who really has compassion for the work that we do.

► Kiara Kuenzler, Psy.D., LP
President & CEO, Jefferson Center
