

Eleos Health CareOps Automation Platform

Augmented intelligence for tech-forward behavioral health organizations

Why Eleos Health?

Delivering great care to your community starts with taking great care of your workforce. Eleos Health exists to help reduce the administrative burden on your team while serving up insights that improve care delivery at all levels. Whether meeting clients in the office, virtually or in the field, we help behavioral health organizations achieve a new standard of care.

What is CareOps Automation?

Augmented intelligence is a form of Artificial Intelligence (AI) that assists providers; it doesn't replace them.

CareOps Automation is a category of augmented intelligence, aimed at helping organizations focus more on care, less on ops.

Join the Tech-Forward Community

The truth is that behavioral health organizations can't keep up with demand if they don't start using technology to their advantage. It's time to go tech-forward and give our members the care they deserve.

Susan Blue, President & CEO of Community Services Group

Eleos is a game-changer. Knowledge without data is opinion. We need to have a data-informed organization at every level. Eleos provides that to us.

Dale Klatzker, PhD, President & CEO of Gaudenzia, Inc.

Those of us who lead behavioral health organizations are faced with a unique opportunity to shift the course of our industry, and with it, the future of our communities. Technology like Eleos will be essential to maximizing this opportunity.
