

Eleos Health & Welligent EHR

Partnering to bring the power of Augmented Intelligence to tech-forward behavioral health organizations

Why Eleos Health?

Delivering great care to your community starts with taking great care of your workforce. Eleos Health exists to help reduce the administrative burden on your team while serving up insights that improve care delivery at all levels. Whether meeting clients in the office, virtually or in the field, Eleos helps behavioral health organizations achieve a new standard of care.

What is Augmented Intelligence?

- A form of Artificial Intelligence (AI) that assists providers; it doesn't replace them.
- CareOps Automation is a category of augmented intelligence, aimed at helping organizations focus more on care, less on ops.

The Eleos Health Care Ops Automation Platform

For Care Providers

**Secure and
Compliant**

HIPAA, ISO27001, ISO 27799, SOC2 and HITRUST Certifications

About the Eleos-Welligent Partnership

Part of the **ContinuumCloud**

Welligent EHR is a best-in-class electronic health record solution for behavioral health organizations, including mental health, SUD treatment, I/DD & autism, child & family, and related organizations. Designed with the configurability to meet the needs of different programs and departments throughout your organization, Welligent EHR provides the all-in-one system you need for clinical workflows, reporting, and revenue cycle management

With this new partnership between Welligent EHR and Eleos Health, organizations can seamlessly layer Eleos' AI and CareOps Automation onto the clinical documentation features they're already using in Welligent EHR. The result is a better experience for your providers, who can spend more time focusing on their clients and less time writing up their clinical notes afterwards. And, since Welligent EHR unifies clinical workflows with billing cycles and reporting, clinical information can flow directly into the revenue cycle for prompt and accurate claims management.

Delight Your Workforce

"I LOVE ELEOS! It's such a lifesaver because I can get my notes done in minutes. It saves me so much time!"

Counselor at Gaudenzia, Inc.

"My clients notice a difference in my presence. Now someone can actually look at my notes and say I understand what's going on...not only for insurance but for clinical care."

**Provider at The Brookline Center for
Community Mental Health**

"One of our therapists got all of her notes done in one day, and I don't think that's ever happened since she's been here."

Supervisor at All Points North Lodge

"The notes are great. I believe this was created just for me lol. No but seriously, it is a stress reliever."

Community Provider at TRILOGY
